

Infrastructure Forum

Investing in Indonesia's growth ambitions

HSBC and Indonesia Investment Coordinating Board with the support of the Indonesian Government are hosting the inaugural Infrastructure Forum, in line with the IMF-World Bank Group Annual Meeting to be held in Bali this October.

Hear from Thomas Lembong, Chairman of Indonesia Investment Coordinating Board, and our panel of expert speakers on plans by the Indonesian Government to drive the global competitiveness of the biggest economy in ASEAN to be one of the top four economies by 2045.

Underpinning the economic ambition of Indonesia is the building of hard and soft infrastructure with more than USD131 billion investment opportunities for private sectors. From the discussions, we will hear updates on the Government's roadmap, address the current investment climate and inherent risks, as well as present opportunities in other growth sectors such as tourism, the digital economy, health, education and services.

As an our guest, we are pleased to offer you an entry pass to the forum, airport transfers and special promotional rates on your accommodation from our official hotel partners, Rimba Hotel Jimbaran and Renaissance Hotel Uluwatu. Further details will be sent upon your RSVP.*

You're also invited to attend our networking event with key clients, HSBC and Indonesia Investment Coordinating Board executives, Government representatives and industry bodies at the Golf and Welcome Dinner on Wednesday 10 October prior to the Forum.

To confirm your place at the Forum and networking events please register via the below [link](#) using reference code "BKPM" before Monday 10 September 2018.

We hope to see you at the Infrastructure Forum at the Ayana Hotel in Bali.
